Awards

2019 Multimedia and
Web Student of the Year
Saint Charles
Community College

EDUCATION

Deep Dive Coders — Full Stack Bootcamp June 2020 - Sept 2020

Ten week intensive full stack development bootcamp.

Saint Charles Community College June 2017 - May 2019

Associates of Applied Science — Web Design

Graduated with High Honors - 3.8 GPA

EXPERIENCE

Deep Dive Coders — Full Stack Bootcamp June 2020 - Sept 2020

Worked remotely with a team and by myself to develop new skills, design technically impressive websites using technologies like React, Express, MySQL, and Bootstrap. Regularly helped my team overcome difficult problems in both design and development aspects.

Self Employed — Virtual Sales Mar 2008 - Sep 2017

Sold virtual goods and services, utilized my communication and interpersonal skills to deliver quality products to clients. Communicating with clients and team members was of utmost importance in day to day sales and delivering of products.

PROJECTS

Concert Crawl — www.concertcrawl.com

Utilizing React, Redux, Express, and MySQL developed a web site to search for and favorite concerts and bands. All work was done remotely in a team of 3.

Suzy S Photography — www.suzysphotography.com

Designed a portfolio website for a photographer from the ground up including the backend. Hosted on my own personal digital ocean droplet containerized in Docker.

Missouri Kids — www.missourikids.org

Coordinated with a team of seven other students to redesign a website for the non-profit organization: Missouri Kids. I personally designed the CSS and home page for the web site, as well as provided assistance to my peers whenever they needed help.
